# Acrylic colours

## **Good Color Lasting**

The color without yellowing, cracking, anti-UV Ray, can be preserved for a long time, little perceptible wet-to-dry color shift.

## **High Light-fastness**

Have good color lasting, will not fade after sunlight and or contact, Colars select the pigments strictly to ensure the light-fastness of the colors, the test requirements not only based on the light fastness of the pigment, but also based on the chemical and the film stability after color-drying.

## **Excellent consistency**

The colors from Colars are famous for their smooth and exquisite consistency. All colors have the same identical consistency. Artist can create their works without limitation.

## **Obvious strokes**

Although the color is very soft, it still can retain the excellent strokes after painted. The remarks created by brushes and knives will become flat after drying.

## **Glossy and Bright effect**

The paintings drew by Colars colors have smooth touch feeling and excellent brilliance, this ensured the easy blending of different colors, preserved brilliance from original colors as well as the high glossy effect even after drying.

## **Perfect strength**

We select the purest pigments, to make the colors in perfect tinting strength and good coverage power.

## **Brilliant and beautiful color**

The brilliant and beautiful Colars acrylic colors are made by UK formula. The colors are very clean and bright even after blended. Non-toxic, environmental friendly, and conforms to EN71, AP and ASTM-D-4236.

## **Wide application range**

Application range is very wide, it can be used on canvas, paper, wood, and leather surface ect. Create your own world with colors according to personal desires.

Available in tubes - 60ml. Range 35 colours

# Oil colours

## Light-Fastness

Artists want their works to be able to be preserved for a long time, and the colors do not fade or change when exposing under light or in the air. Colars introduced the latest formulation from England, produced colors with excellent light-fastness, very suitable for artists. The works can preserve for a long time without cracking, color changing or yellowing. The latest formulation and production technique from UK ensures Colars oil colors the best quality not only on the fastness, but also the stability of painting film.

## Consistency

The color from Colars has the consistency of smooth and even, which gained many compliments among the artists all over the world.

## Easy to use

The oil color with latest formulation from Colars suitable for impasto and thin coating, it is very easy for impasto with brush and palette knife, the works will never lose the gloss. The shaped film is irreversible, that is why the colors are better than the other water-based colors.

## Tinting strength

Colars colors made from imported raw materials, each color is very beautiful as a result of its unique formula, good stability, strong covering power and coloring strength.

## Color Brightness

Oil colors from Colars has the brightest colors cause of the advanced technique and formulation from UK, the colors can still keep clean and bright even after mixing.

## Transparency

The colors from Colars can reflect the original characteristic of pigments, ensured the max transparency of the synthetic organic pigments, while the white color has very excellent opacity.

Available in tubes - 60ml, range of 28 colours and 180ml Tit. White
